Alexandria, Virginia 22313-1450

Dear Sir:

We have noted, in proofreading the above-referenced patent, the errors listed on the enclosed Certificate of Correction form and as listed below which were made by the U.S. Patent and Trademark Office in printing the '815 patent (see Column 9-10, Line 1-20, Claim 16), as well as a couple of minor errors that were inadvertently made in the application or amendments as filed:

The corresponding location in the application of the errors in question are as follows:

Column 7, Line 27; (Application Page 5, Line 2);
"heats" should be --heat--;

Column 7, Line 21 (Application Page 11, Line 14);

DEC 19 2006

EV 757 778 539 US

After "than" delete "the";

Column 7, Line 67 (Application Page 12, Line 19);
"his" should be --this--;

Column 9-10, Line 1-10, Claim 16 (Supplemental Notice of Allowability dated 5/8/06 Page 2, Line 6-9, Claim 7);

Delete Claim 16 of patent (original Claim 17) and insert original Claim 7:

--The method according to claim 6, wherein the matrix powder feedstock comprises a tungsten PIM feedstock, with a tungsten solid volume loading in the region from 38 to 55 percent.--.

Please certify the enclosed duplicate copy of the Certificate of Correction and return same to us. Since the error in claims was made by the U.S. Patent and Trademark Office in the printing of the '815 patent it is believed that no fee has been incurred.

Respectfully submitted,

Dated: December 13, 2006
